

## DIAMOND GOSPI.

his Week's League Games—The Stockton Transfer Not Yet Made.

To-morrow the Sacramento will leave for Stockton to play ball with the club of that city. The game will also be played there on the morning of the Fourth of July, and in the afternoon they will play in this city.

The Oakland and San Francisco will play together at the Haight-street grounds to-morrow, and on the following day they will contest in a diamond game at Oakland and in the afternoon at San Francisco.

On Saturday and Sunday the Oakland and Sacramento will be pitted against each other at the Bay.

The rumor that Manager Finn, of the San Francisco, was going to resign the management in favor of Henry Harris, who is now in Portland, is said to have had no foundation. The fact is authority for a statement by Mr. Finn that he will stay by his club to the end.

In reference to the recent talk of the Stockton club being transferred to San Jose, the *Record-Union* has to say: "The baseball situation is considerably changed. The Stockton team is becoming discouraged, and the appreciation and interest the people manifest and is taking heart and shaking off the 'don't-care-cent' feeling which had covered the players under the head-ahead management which they had been subjected to, and which caused them to lose so many games. If only they had more than a given half a chance, they will crawl rapidly toward the front. There is nothing that will inspire a ballplayer more than to know that the public has, in a measure, taken charge of the game and expressed a desire that the men play good ball, and that do so. As to the transfer, that will not be made if the people want the club to stay here and will subscribe to the \$25,000 amount of money within the next fifteen days."

Goodenough and Shea are about on a tie as regards the greatest number of base steals.

The men in the Sacramento nine think the San Francisco audience the most impartial in the State. They admit that their good plays are duly appreciated. The *Call* says: "After four months' up-bill work, the Senators have been playing at San Francisco, with some exceptions, are pleased to see them at the head of the procession. A Frisco cannot get the penance of the Sacramento to see it go to the Capital City than to any other town."

Borburg, who will be remembered by Sacramento people, is playing ball in New York.

The San Francisco have been dubbed the "Gobins" on account of the color of their uniform.

There has been considerable argument in baseball circles as to whether or not the Oakland were ever in the lead. The *Colo* were the leaders just before the game on May 24 was played in this city.

The San Francisco *Record* and *Sportman* has this to say of the Sacramento's latest pitcher: "The Senators have added strength to their pitching staff in a most valuable way. The new pitcher has showed himself to be a good one, and has yet in reserve a few balls that will be puz for the Oakland. A good out-and-dropper ball, in addition to the fact that he is a fast ball, and which is most deceiving and effective."

Referring to Bowman, the same paper says: "Bowman, the catcher of the Sacramento, is a player that is 'up to date.' He is one of the prize players of the country."

The liquidation sale of the Samuel Jelly jewelry establishment has fully demonstrated the effectiveness of newspaper advertising. Mr. Hugh Mauldin, upon assuming the position of manager, conducted the sale with a liberal amount of printers' ink, judiciously placed, was an essential to a successful sale.

He accordingly contracted for an extensive amount of advertising in the new paper columns. It is now an acknowledged fact that, from a financial standpoint, a newspaper is not conducted in this city for years.

Generous Contribution. Santa Cruz is getting up a subscription fund to defray the expense entailed by the preparations for military encampments at that place. General Passenger Agent Goodman, of the Southern Pacific Company, writes to local committee as follows on the subject:

"I take pleasure in informing you and other parties interested that our people have authorized me to subscribe \$500 toward expense account. Will you explain this matter fully to Mayor Bowman, and let me know in what way you desire this amount paid or refunded?"

Approaching Completion. The hands of the new building at Fourth and J streets is fast approaching completion, and in a couple of weeks will be ready for occupancy. The Sutter Club will take possession of the three upper stories on the 15th of this month, and some of the workmen are now at work on the new building.

The basement of the building will be used for the United States Internal Revenue office, and will be removed on the 1st of August.

The Weather is Perfect. The Signal Service temperature at 5 A. M. and 5 P. M. yesterday was 55° and 83°, while the highest and lowest was 87° and 54°, with brisk southerly winds and a cloudy sky.

The highest and lowest temperature one year ago yesterday was 95° and 56°, and one year ago to day 100° and 72°, showing what one year weather can do, and how much to what we were suffering from a year ago.

An Insolvent Debtor. C. L. Kamyre yesterday filed in the Superior Court a petition in insolvency. His liabilities amount to \$3,792.82, all of which is owing to Sacramento persons. His only assets are two lots in College Park, Sutter county, which he has sold for \$1,000, and the receipt of Manager Gardemeyer for the money paid. These lots are valued at \$2,000, and are covered by a homestead claim.

Police Detail for the Fourth. All members of the police force, with the exception of the day and night jailer, will participate in the parade on the Fourth, mounted on grey steeds. The duty of seeing that the streets are cleared has been assigned to officers Frize and Frank. The latter officers will also lead the horse parade, but will not compete for any of the prizes out of regard for the other participants.

Dropped in a Good Place. Yesterday a prominent farmer from the southern end of the county was in a downtown store purchasing a suit of clothing, and dropped a note in his favor for \$1,000. One of the clerks picked it up, the owner had disappeared and looked it up and returned the valuable bit of paper.

State Money Received. The following settlements were made with the State Treasury yesterday: Tulare county, \$145,857.51; Los Angeles county, \$71,061.48; Merced county, \$5,674.99; Secretary of State, \$7,747.50; Survey General, \$1,654; Register of the Land Office, \$546.

To Succeed Captain Dwyer. The Iniquitous (Democratic) Club last evening elected City Trustee McLaughlin as Treasurer, to fill the vacancy caused by the death of the late Captain Thomas Dwyer.

Again in the Field. Lovers of first-class laundry work will be pleased to know that Fred Mason has again assumed control of Mason's Steam Laundry, and is prepared to do better work than ever. His shirt factory, No. 528 J street, is again in full blast, and orders are respectfully solicited.

This only genuine pure white Mason improved jar, at same price as inferior jars. Jos. Thibien Crockery Company, 518 J st.

Cry cleaners, water rates and dog taxes now pay on or before the 15th inst. and save costs.

The Capital Gas Company disposed of \$150,000 worth of bonds yesterday. The highest brought 7 per cent. premium and the lowest 51 per cent.

Don't Fail. To call at 419 K street and try my delicious ice-cream and ice-cream soda. Flavor pure from the fruit itself. Your patronage kindly solicited. F. H. Giescke.

## STREET CAR BLOCKADE.

The K-street Tracks Obstructed by the Street Cars.

All the cars running on K, H and O streets were blocked on the first-named street yesterday afternoon for about two hours. There were red cars, and green and blue cars sandwiched in rows on the double track in the block between Ninth and Tenth streets.

The workmen engaged in tearing down the old frame structure that stood between the State House Hotel and Turner Hall, had as their first object the removal of a couple of trucks. But the latter broke down when they reached the railroad tracks, causing a complete blockade for a couple of hours. The rickety old structure was again got upon wheels and hauled away, distributing its shingles along the cobble street as it went.

A. Cool, owner of the lot, is about to erect a substantial building on the site of the old one.

## DANGER OF FIRES.

Precautions That It Might Be Well to Take on Friday.

It has been suggested that on the night of the Fourth of July the fire department station at least one engine in the vicinity of Tenth and M streets, where the fireworks are to be displayed. Residents thereabouts fear that some of the descending rockets may set fire to buildings thereabouts.

No doubt those in charge of the pyrotechnics will set them off in the direction of Capitol Park, where there is nothing that will be puz for the Oakland. A good out-and-dropper ball, in addition to the fact that he is a fast ball, and which is most deceiving and effective."

Referring to Bowman, the same paper says: "Bowman, the catcher of the Sacramento, is a player that is 'up to date.' He is one of the prize players of the country."

## AFTER THE DOVES.

How the Season Opened Here—The Doves Still Live.

So far as the law in this county goes, the dove crop is ripe, and the harvest will open yesterday in force. This class of fruit is picked with shotguns, but it doesn't keep well, if the weather be hot, and often spoils before it can be got to market.

There were probably fifty men and guns out yesterday in this vicinity gathering in doves, each of whom had promised his many friends at least a couple of birds each. But if any were stopped in their flight they must have been lost in the weeds, for the law is doveless last night—so far as could be learned.

Some of the hunters came to grief, as usual. One, in particular, a somewhat loquacious knight of the dove, who had taken "dove shoot" to his victims' tombs. As the end of the close season drew near he became excited and nervous over the prospect of making a big bag of the toothsome birds on the 1st of July. As the warm June sun began to glow, he set off for the Sierra Nevada, and by morning he was far on his way to "Ma-kos-me" river, his vehicle loaded down with ammunition, dog, grub and Buffalo bear.

When he reached the happy hunting ground he was so nervous, in his anxiety to begin the work of slaughtering the doves, that in losing the horse's halter he somehow tickled the animal's ear, his hand had the effect of a concentrated blast of electricity, and the horse began a warden. When it got through and started off through the fields, the hunter picked himself up from the ground and began feeling to see if his nose and ears had been touched. He found they were not quite all gone—but his outfit had vanished. He found it later on, and gathered it up by the wayside in piecemeal.

A good-natured rancher brought him home, but he has lost his enthusiasm about dove-shooting.

## AMUSEMENTS.

Mr. Wilson Barrett's company appeared at the Metropolitan last night to fine advantage in "The Silver King." Indeed, the characters assumed by the several members of the troupe were admirable.
